

# B2B Integration EDI Adapter

Electronic data interchange (EDI) Adapter provides an eBusiness interface between WMS and a Customers system.

Designed in conjunction with Specialist EDI team this WMS module will retrieve new orders every few minutes from your customers system to the WMS Sales Registry.

There are many standard eBusiness order formats that can be consumed by Datapel Warehouse Management Systems.

Here are some just of the companies that Datapel have interfaced using Datapel Systems EDI Adapter; Blackwoods, Coles, Woolworths, Bunnings, Rebel Sports, BCF, and Anaconda.
